Detailed Action

Reasons for Allowance

1. Claims 1-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

This application is for a magnetic write head.

- **Claim 1** specifies a magnetic write head, which requires:

“...a planar top yoke connected to said bottom yoke through a back gap region, said planar top yoke ***has a second pole tip region and a front section that is narrower than a back section*** wherein said front section has front and back ends and a ***first thickness wherein said front end is attached to a back end*** of said second pole tip region formed above said write gap layer and ***wherein said second pole tip region has a second thickness less than said first thickness***, a width, a length, and a front end or second pole tip formed along the ABS.”

These features, in combination with the other features of Claim 1, are not anticipated by, nor made obvious over, the prior art of record.

- **Claim 14** specifies a magnetic write head, which requires:

“...***a second pole tip region having a third thickness less than said second thickness***, a width, a length, and front and back ends wherein the front end is a second pole tip formed along said ABS.”

These features, in combination with the other features of Claim 14, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
